OFFERING

I dedicate this booklet to my
beloved class teacher and all
my friends.

Preface

The primary goal of the current educational system is to mould a productive citizen and caring family member who is equipped with knowledge and skills. The main responsibility of the school is to identify and recognize children's talents, as well as to sharpen their skills to meet the needs of the nation and the world. Our Alma Mater is constantly guiding and assisting children who are creative. I would like to thank our school management committee employees, and parents, for me students, administrators, and teacher from other schools who encouraged students to take part in this worthwhile effort.

Ms Shashikala Senadheera,

Principal,

Mahamaya Girls College – Kandy.

Once upon a time there was a dark forest in the middle of a city. There is house in the middle of it. It was scary and dark. People didn't like to go there because it was scary and in a middle of the dark forest.

There were 4 friends who played with a helicopter toy. They are Mike, Jack, Ann, Rose. Suddenly it flew to the house in the dark forest. Ann and Jack were scared to go there. But Mike and Rose are not scared.

They told Ann and Jack “Do not to be scared. We all are here”. So they went to the house and it was very dark and unused. Mike went first to open the door

They went inside and looked around the house. There were stairs used to climb up the house. There were many rooms in it .

The doors are broken and the floor was broken with holes and cracks with it. We went to climb the stairs and the door closed automatically. We all got scared and ran to the stairs and suddenly we all fell down from the stairs through a hole.

There was an underground floor in the house and there was a stair to climb up to main floor. Suddenly a dark shadow appeared and it climbed down the stairs. We quickly hid behind a sofa near the corner. We were very scared and began to shout when the shadow came closer. But it was an old man who lives in the house. We came

out from the sofa and asked
“who are you?”

He said “I am the owner of
this house and why are you
scared? I am not a ghost,
I am a man.”

The children said we came to
take the helicopter. The old
man said “you all must be

hungry, come I will give you food”.

He gave us the helicopter which went to the house. The children ate and said thanks to the old man and went to their houses.

THE END!

THANK

YOU!

Afterword

As modern technology permeates the social and economic arenas, students tend to distance themselves from the creative process, relying more and more on technological tools. To reduce this risk and help aspiring young writers produce their own books, I sought and presented a research proposal to the Ministry of Education in 2014. It was a fantastic opportunity for children to showcase their enthusiasm and knowledge. The students of Mahamaya Girls' College achieved a record for the most books written, paving the way for a new level of innovation. The e-book project will enable the students to reach international readers, and I am confident that they have gained new experiences and challenges that will enable them to face the future with resolve.

I wish all of the young writers the best of luck in their future endeavors
