Afterword

As modern technology permeates the social and economic arenas students tend to distance themselves from the creative process, relying more and more on technological tools. To reduce this risk and help aspiring young writers produce their Own books, I sought and presented a research proposal to the Ministry of Education in 2014 It was a fantastic opportunity for children to showcase their enthusiasm and knowledge. The students of Mahamaya Girls' College achieved a record for the most books written, paving the way for a new level of innovation.

The e-book project will enable the students to reach international readers, and I am confident that they have gained new experience and challenges that will enable them to face the future with resolve.

I wish all of the young writers the best of luck in their future endeavors
