Preface

The primary goal of the current educational system is to mould a productive citizen and a caring family member who is equipped with knowledge and skills. The main responsibility of the school is to identify and recognize children's talents, as well as to sharpen their skills to meet the needs of the nation and the world.

Our Alma Mater is constantly guiding and assisting children who are creative. This project has been an ongoing process at our school for many years, particularly in terms of writing books. Many skilled and enthusiastic young writers participated in this exercise for years, producing novice writers to field of literature. We regard this as a great victory and a national need at this hour.

To continue this effort, we have adopted digital technologies and an e-book project this year. I am confident that this unique event provided youngsters with valuable experience and challenges that will benefit them in the future.

The Ministry of Education has hailed the project as an important step toward motivating young authors in schools. As principal of Mahamaya Girls' College, I am grateful to all of the students throughout the country who contributed to this endeavor. I commend and applaud all of the young authors of these-books for their perseverance and devotion in this difficult task.

I would like to thank our school management committee, employees, parents, for my students, administrators, and teachers from other schools who encouraged students to take part in this worthwhile effort.

Ms Shashikala Senadheera

Principal

Mahamaya Girls College - kandy

2023 . 11 . 10

Dedicated to my school teachers, pre-school
teachers, Ms.Ehi my English teacher, my
parents, younger brother and my grand parents

Introduction

This book is written under the "Diviya Dinana Vidyuth pothak" E- Book Publishing project and it contains an imaginary story of why we see the rainbow after the each and every rain cease.

Special Thanks

to Mrs. Damayanthi Rathnayaka, the class

Diviya Dinana Vidyuth pothak" E- Book
Publishing project

Principle, Primary Section,

Principal, Mahamaya Girls College, Kandy

And Ms. Lumbini

(Mother of daughter Sathini Grade - 4),
who gave immense support to obtain ISBN codes
for success these effort.

Today is a rainy day. I am still on my bed.

I thought why the rain does not wash out colours of the nature.

I call my friend, the Rainbow fairy.
She is very beautiful and kind.

Quickly, she appeared in front of me with a big smile.

Hello, Dear Pamo... After a long time. How are you?

Yes, my dear fairy, I am fine.

I have a question, could you please answer me?

Yes, of cause my dear.

Why the rain does not wash out the colours of nature?

Why not? The rain washes out the colours, little bit.

But, I always refresh the colours by sending my rainbow, after the rain.

That's why, a rainbow always raised after the rain.

Thank you my dear fairy. I got the answer.

You are welcome, my dear. The rain is ending,
now I have to go and raise the rainbow.

See you soon, Pamo...

Afterword

As modern technology permeates the social and economic arenas, students tend to distance themselves from the creative process, relying more and more on technological tools. To reduce this risk and help aspiring young writers produce their own books, I sought and presented a research proposal to the Ministry of Education in 2014. It was a fantastic opportunity for children to showcase their enthusiasm and knowledge. The students of Mahamaya Girls' College achieved a record for the most books written, paving the way for a new level of innovation.

The e-book project will enable the students to reach international readers, and I am confident that they have gained new experiences and challenges that will enable them to face the future with resolve.

I wish all of the young writers the best of luck in their future endeavors

Senevirathna Mahalekm
