## *Foreword*

Literary development is a yardstick to measure the development of a country. The Kotte and Dambadeniya eras stand out in the history of the world because they were literary enlightening periods. If so, this is the golden period in the history of the *Mahamaya* as well. This is the reason why our daughters have been enchanting through book writing for many years now. It is a special event that our writers have succeeded in building a culture of writing books in the school and spreading it to the entire school system and this time involving the global student community in it.

Beyond this, this time the school community itself has also decided to rebuild the past *Yatiwara* writing tradition in the country in order to pay tribute to the founder of our school, Karadana Atthadassi Thero.

The *Pirivena* student monks have also taken up book writing “The *Herana Gatkarani*” project was introduced.

It is a matter of pride for me as the principal to lead the way in bringing about a qualitative change in the education of schools and *Pirivena* education through this academic and religious service, and it is also an achievement for the school.

This book, which is the result of recognizing one's innate talent at an early stage in life and turning to writing, will undoubtedly be a help for future education and future life.

In the deep of the woods there was a secret place where no one knew about. It was a magical kingdom full of mythical creatures. And the rulers of this kingdom was fairies.

And on a one sunny day fairy king's and queen's baby girl was born. On that exact second all the roses in the kingdom bloom. Because of that the fairy king and queen decided to name their baby "Princess Rose".

Princess Rose was a joyful girl, because of that everyone loved her. She'd flutter around castles playing hide and seek with the maids. She loved to play with unicorns. Her best friend was also a unicorn called Rainbow. Every day she goes to the forest with the fairy maids to pluck apples to feed unicorns.

In the morning, she fly to the coral pond where mermaids live, and the mermaids will put CRAZY hairstyles on Rose's beautiful dark red hair. Then they will decorate it with little charms to match her dress.

Rose always brought delight to everyone in the kingdom. Because of her kindness and enjoyable lifestyle.

But there was a mysterious place that Rose never been to. It was the **DRAGON'S DEN**. No one let her go near it. Because everyone thought that it was a dangerous place. Rose was a curious girl. She always wanted to know what is happening in there.

So Rose decided to make a plan to go there. She told her best friend Rainbow to come with her. Rainbow said that she is a bit scared to come. Because she thought that the dragon will eat them. But Rose convinced that if they work as a team they can protect each other. So Rainbow agreed to go with her.

So, when the darkness of the night sky started to spread around the kingdom all the creatures went to bed. But Rose was so awake. She sneaked out of her room and went to the stable where Rainbow was.

Rainbow was sleeping so Rose had to wake her up without waking others. So Rose gave a gentle tap on her head and Rainbow woke up with a thud. She was pleased to see Rose standing in front of her.

Then Rose took an enchanted lamp and they sneaked out of the castle. They went straight up into the emerald forest, where the **DRAGON'S DEN** was. Both of them were a bit scared because no one knew what was going on there.

They went deep into the woods and it started to get even darker. They got closer to the DEN and they went inside. It was so dark. But they could see inside it with the help of the enchanted lamp.

They heard something moving inside. They took a little peek and saw a huge dragon sleeping. And by the side of her there was three dragon eggs. The dragon mother woke up and Rose and Rainbow decided to keep it quit.

The mother dragon was crying in pain because seemed like her wings had been broken. Rose heard the painful crying and her heart melted. She thought that she should help her.

Then Rose told Rainbow that she's going to help the dragon and cure her wings. But Rainbow refused Rose's idea because she thought that the dragon will eat them fresh alive. But Rose decided to help her because she wanted everyone in this kingdom to be happy.

So Rainbow decided to help Rose because she was her best friend. Then they got closer to the dragon. The dragon was scared. Rose said that there is no reason to be worried. And explained the mother dragon that they are here to help her. So the dragon decided to get help from Rose and Rainbow because she was in a huge pain.

Then Rose took her magical fairy wand and started to enchant a spell... **“WITH THE MAGIC OF KINDNESS. CURE THIS POOR DRAGON’S WINGS”.....**

A gold sparkle came from Rose’s wand and covered mother dragon’s wings. The wings slowly started to heal. Rose and Rainbow was so happy and also the mother dragon was happy. She thanked the two little heroes for saving her.

After all of that the three of them heard something cracking from a side of the den. They turned their heads and saw three cute little baby dragons peeking from there egg shells.

Mother dragon went there and hugged her little babies. Rose and Rainbow was amazed by seeing the three baby dragons. They both went there and hugged the little creatures.

It was already morning the fairy king and queen found out that Rose was not in her room. So they went to find her. They searched everywhere in the kingdom but couldn't find her.

So lastly they went to the dragon's den and they saw Rose with the huge dragon. They were so scared. But Rose and Rainbow explained that the dragon mother was harmless.

And Rose told her parents about everything happened last night. They were angry and also proud at the same time. Then the fairy king thanked the dragon. And told her that she can visit his castle any time. Because she did not harm Rose and Rainbow.

Then the dragon babies became rose's and Rainbow's best friends. *AND ALL THE CREATURES IN THE KINGDOM LIVED HAPPILY EVER AFTER.*

**THE END**

## *Afterward*

According to my concept, under the project that has been running since 2014 to direct school children to writing, we have been fortunate to have planted more than sixty thousand writer seedlings in the local literary field. The objectives of this project are to improve the quality of education, to promote literature that will contribute to the future development of the country, to hone the abilities of the future generation, and to build a platform to showcase the creations of children.

It is our social responsibility to create the fertile soil for those seeds to sprout and grow. This is the only project in recent history that has been implemented continuously for several years at the school level, provincial, national and international levels for the sake of the productivity of education.

This time, it is special that the *Pirivena* student monks have also been involved in this. The nation should be grateful for the dedication shown by the Principal, daughters, teachers, parents and alumni of *Mahamaya Balika Vidyalaya*.

The printed book is still the main tool of our education. The enjoyment that a child gets from a book cannot be provided by anything else.

It is experimentally proven that the use of various electronic devices to store human knowledge and the distancing of children from books has been detrimental to the quality of education and has created various problems in society. This project, which is being implemented as a solution to this, has been adapting the smart younger generation of the digital age to modern technology by writing electronic works for the past two years, together with school children in the country.

To take their creations to international readers, Mahamaya girls have built a digital fiction for their own, literary creative abilities.

My congratulations to the young writers who have entered it through their creative abilities.
