Foreword

Literary development is a yardstick to measure the development of a country. The kotte and Dambadeniya eras stand out in the history of the world because they were literary enlightening periods. If so, this is the golden period in the history of the *Mahamaya* as well. This is the reason why our daughters have been enchanting through book writing for many years now. It is a special event that our writers have succeeded in building a culture of writing books in the school and spreading it to the entire school system and this time involving the global student community in it.

Beyond this, this time the school community itself has also decided to rebuild the past *Yatiwara* writing tradition in the country in order to pay tribute to the founder of our school, Karadana Atthadasse Thero.

The *Privena* student monks have also taken up book writing “The Herana Gatkarani” project was introduced.

It is a matter of pride for me as the principal to lead the way in bringing about a qualitative change in the education of schools and *pirivena* education through this academic and religious service, and it is also an achievement for the school.

This book, which is the result of recognizing one’s innate talent at an early stage in life and turning to writing, will undoubtedly be a help for future education and future life,

Shashikala Senadheera,

Principal, Mahamaya Girls’ Collage, Kandy.

One upon a time, there was a butterfly and a lady bug, called Nora and Siesi. They were mango friends. One day in the morning they both came to the flower garden and they started to have their breakfast.

At that time Nora Said “Good morning Siesi, Did you finish having your breakfast”

“Good morning Nora, Yes I do ...

It was tasty” said siesi.

“Siesi shall we go for a walk today?”

“Yes we can go for a walk today, and we can collect some food for the Winter” Said Siesi.

“Ok Siesi that’s great. Let’s find food together. After having breakfast they started to collet food. But it’s almost near to the winter. They flew and flew far away to find food.

When they were flying they saw a beautiful flower garden.

The garden was full of flowers. Nora and Siesi was so happy. When they entered to the garden they felt something strange... what could it be Siesi Said...

Oh! This flower garden belongs to a witch.. look at there..... they both look at the witches garden.. and screamed a lot.

Then Nora said “Hurry up let’s go home.” But it was too late ... the witch came closer. She was furious. The witch caught Siesi and Witch said “ ha ha ha I will kill you... or are you going to your home ah?” I’m going to make a soup from you ha ha ha said the witch....

She put a net to caught Siesi and Nora..
unfortunately Nora flew fast then got free from the
net but Siesi traped in to the net. The witch took
Siesi in to the dark castle and looked her inside.
Nora cried a lot.. she tried to save Siesi from the
witch. But she couldn't do that. Siesi also cried a lot..

When Nora was crying her tears fell in to the ground and an angel saw that. She came and asked Nora “Why are you Crying” Nora said “the witch caught my friend Siesi and

locked her in that dark castle.. I couldn’t save her....”

Angel said “oh no dear don’t cry. I will help you. After that Angle use her magical power and become a small lady bug.

Then she entered to the dark castle and found Siesi ... And she use her magical power again and became to a Angle. Siesi was so happy. Angle said “dear lady bug your friend is in outside she asked me to help you.

“What I thought Nora left me alone” Said Siesi.

Angle use her Magic stick and let Siesi free from the cage.

At that time the witch came to take Siesi for her soup. The witch suprized and asked, “Who are you.. I will kill both of you.. ha ha ha” Angle said “I’m Angle Lora. I came to help this little lady bug. You bad witch now I’m going to punish you for your bad work. Angle Lora use her magical power and turn the witch in to a rat.

Angle lora and Siesi came out faster and meet Nora...

Nora was so happy to see her friend Siesi.. They both thank to Angle Lora and flew faster. They Never went again so far to collect food.

The End

Afterward

According to my concept, under the project that has been running since 2014 to direct school children to writing, we have been fortunate to have planted more than sixty thousand writer seedlings in the local literary field. The objectives of this project are to improve the quality of education, to promote literature that will contribute to the future development of the country, to hone the abilities of the future generation, and to build a platform to showcase the creations of children.

It is our social responsibility to create the fertile soil for those seeds to sprout and grow. This is the only project in recent history that has been implemented continuously for several years at the school level, provincial, national and international levels for the sake of the productivity of education. This time, it is special that the *pirivena* student monks have also been involved in this. The nation should be grateful for the dedication shown by the principal, daughters, teachers, parents and alumni of *Mahamaya Balika Vidyalaya*.

The printed book is still the main tool of our education. The enjoyment that a child gets from a book cannot be provided by anything else.

It is experimentally proven that the use of various electronic devices to store human knowledge and the distancing of children from books has been detrimental to the quality of education and has created various problems in society. This project, which is being implemented as a solution to this, has been adapting the smart younger generation of the digital age to modern technology by writing electronic works for the past two years, together with school children in the country.

To take their creations to international readers, Mahamaya girls have built a digital fiction for their own, literary creative abilities.

My congratulations to the young writes who have entered it thorough their creative abilities.
