*I will Offer
this Book to all
my teachers
Who always
behind me.*

Foreword

Literary development is a yardstick to measure the development of a country. The Kotte and Dambadeniya eras stand out in the history of the world because they were literary enlightening periods. If so, this is the golden period in the history of the *Mahamaya* as well. This is the reason why our daughters have been enchanting through book writing for many years now. It is a special event that our writers have succeeded in building a culture of writing books in the school and spreading it to the entire school system and this time involving the global student community in it.

Beyond this, this time the school community itself has also decided to rebuild the past *Yatiwara* writing tradition in the country in order to pay tribute to the founder of our school, Karadana Atthadassi Thero.

The *Pirivena* student monks have also taken up book writing “The *Herana Gatkarani* “ project was introduced.

It is a matter of pride for me as the principal to lead the way in bringing about a qualitative change in the education of schools and *Pirivena* education through this academic and religious service, and it is also an achievement for the school.

This book, which is the result of recognizing one's innate talent at an early stage in life and turning to writing, will undoubtedly be a help for future education and future life.

Shashikala Senadheera,

Principal, Mahamaya Girls' Collage, Kandy.

Have you ever thought about magical mysterious door? Well you haven't heard about it how about the adventures story. So all started at my school in the interval, When I was exploring the butterfly. Mary was with me. She is my best friend and always will be.

There was a little cave in the garden which was very popular for mysterious missing of student in the school. Some children say that, their friends disappeared in the cave after they went into the magic cave. The friends who disappeared inside the cave were our friends as well. No body knows how they Disappeared. Because of that police came and inspected the cave, but nothing was found except some small rocks & sand. I was curious about this So we decided to go inside the cave. My Friend Mary was curious as well. We search for a while but nothing was there. After some time a bright light appeared deep in the cave. We were a bit nervous but we needed to solve this puzzle on disappeared children. We slowly tip toed towards the bright yellow light. There appeared a door named as the mysterious door. We went inside the door to explore.

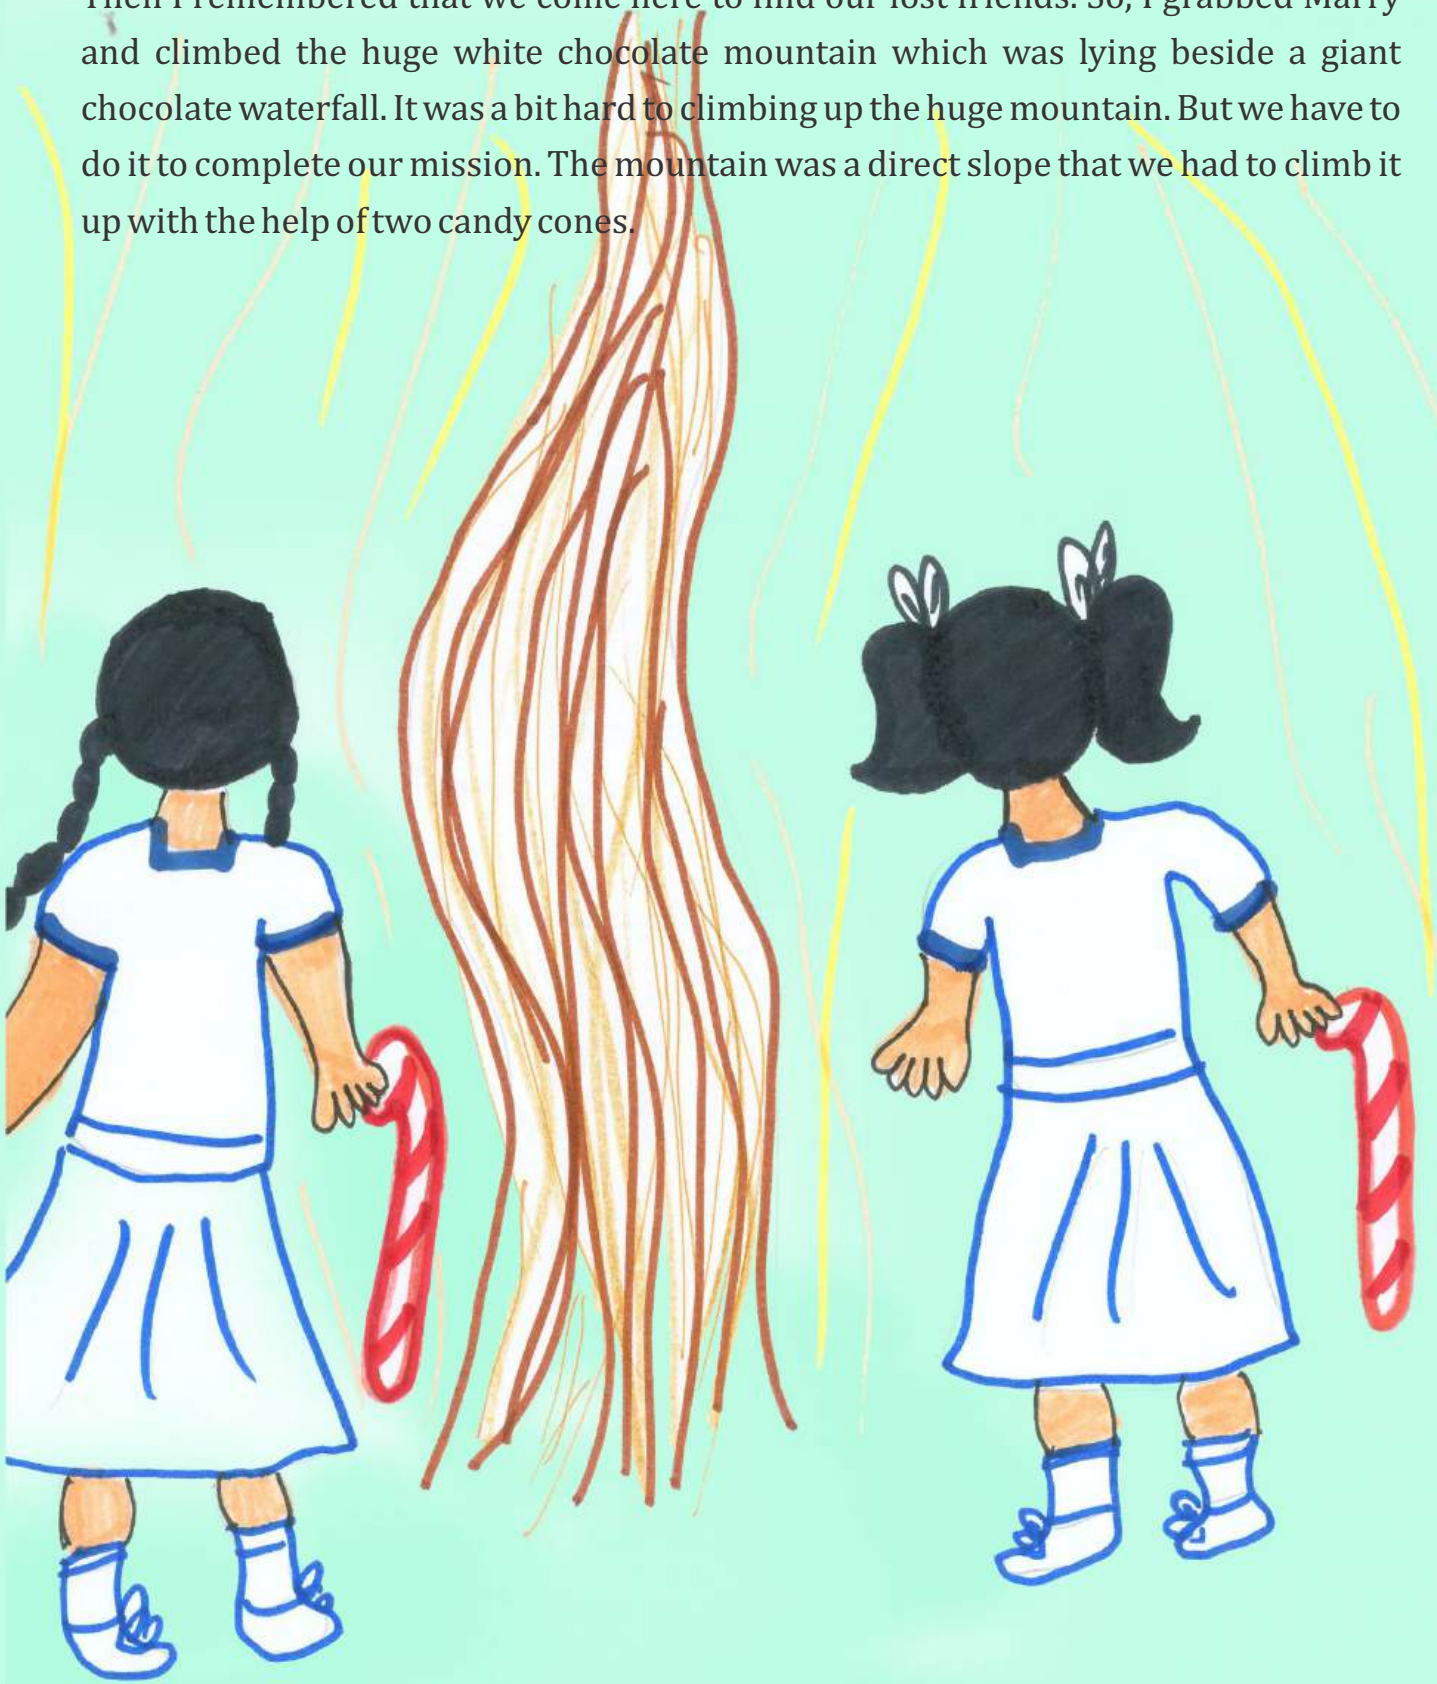

We both were amazed by what we saw. What we saw was a candy land ! It was filled with sweets such as lollipops, ice creams, Chocolates, chew gums, chips and many more.

We both were very excited. That Mary bit a bunch of candy floss right away ! well, I also could not resist it as well, so I started to suck a strawberry lollipop like a bee sucking nectar from a flower.

Then I remembered that we come here to find our lost friends. So, I grabbed Marry and climbed the huge white chocolate mountain which was lying beside a giant chocolate waterfall. It was a bit hard to climbing up the huge mountain. But we have to do it to complete our mission. The mountain was a direct slope that we had to climb it up with the help of two candy cones.

However, we climbed up and up that we could reach the sky. But there was a huge slope again to the other side as well. The Sun was shining brightly and no clouds were there in the sky. But the chocolate were not melting ! How amazed.

We slipped down to get to the ground again. We could slip easily because it was a slope. After we got down we thought that we were lost. Actually we were lost ! After some time walking. I found a remote controller on the ground. I have never seen anything like this. Mary said that it was a time traveling machine. After hearing that I got a brilliant idea. We could go back from the time gain and see where our friends were. When I told it to Mary she was happy as well.

So we pushed a button that was named as "go back" A bright orange light came and took us back to the strange world we were now. This was all happening from excess solar radiations. I did not knew it at that time because we were two exited well! We were again in the place where we started our quest.

We saw our friends coming from the magical door. One by one. There were five children. Joe, Rosy, Holly, Ben and Dotty. They all started to eat candies as we did at the beginning. After some time we saw them going into a huge tree frighten and confused. Mary shouted their names but they could not hear us. Then I remembered that we went back from the time so that no one can't hear.

Then we immediately pressed the button go to the future then again a bright light appeared and grabbed us to the place where we were. We searched for the tree that our friends were. It was near us the branches were made out of cookies and leaves were made out of candy floss.

We peeped through the big hole and found our friends cuddling together & frightened. They were very happy when they saw us. After some time of talking, Holly said that the magical door that we came from cave came again. I was worried at the first time but then I remembered the time travelling machine. So, we pressed the button go back as usually the bright light appeared & took us to the cave where we were being our quest. We were very happy. So we ran out of the cave and our friends were very happy to see us and the time was paused till we come again to the school.

It was still the interval our teacher was happy to see our lost friends again as well as their parents. well, we had a long story to tell to our parents and our friends. our teacher appreciate our job and we both were famous in the school named as the "BRAVE TWO"
