

THE DARK FOREST

U.H Jalani vihansa nirmala

**I live in a village. I see a dark forest.
It's near to the village. My mother
said don't go to there. It's dangerous
but I didn't think about that much. I
went there. I feel someone behind
me I turned back nothing behind me.
But dark shadows lingering,
branches littering the ground making
it difficult to walk in a straight line ,
sound of the wind, distance sound of
clicks indicating that there may be
some unknown creatures. I felt like
that. Here is so cold. I'm lost.**

I thought someone following me again. I turned back nothing was there. I stepped on a dead rat. I looked like someone killed it. I felt like someone lived here. I said “hello someone is here” no one is here. Little by little this place started to get dark. I felt scared. No one is here no need to scared. I saw something shiny. I looked closer. It’s a key. Where did this key came from. I get the key and went. I saw a old house.

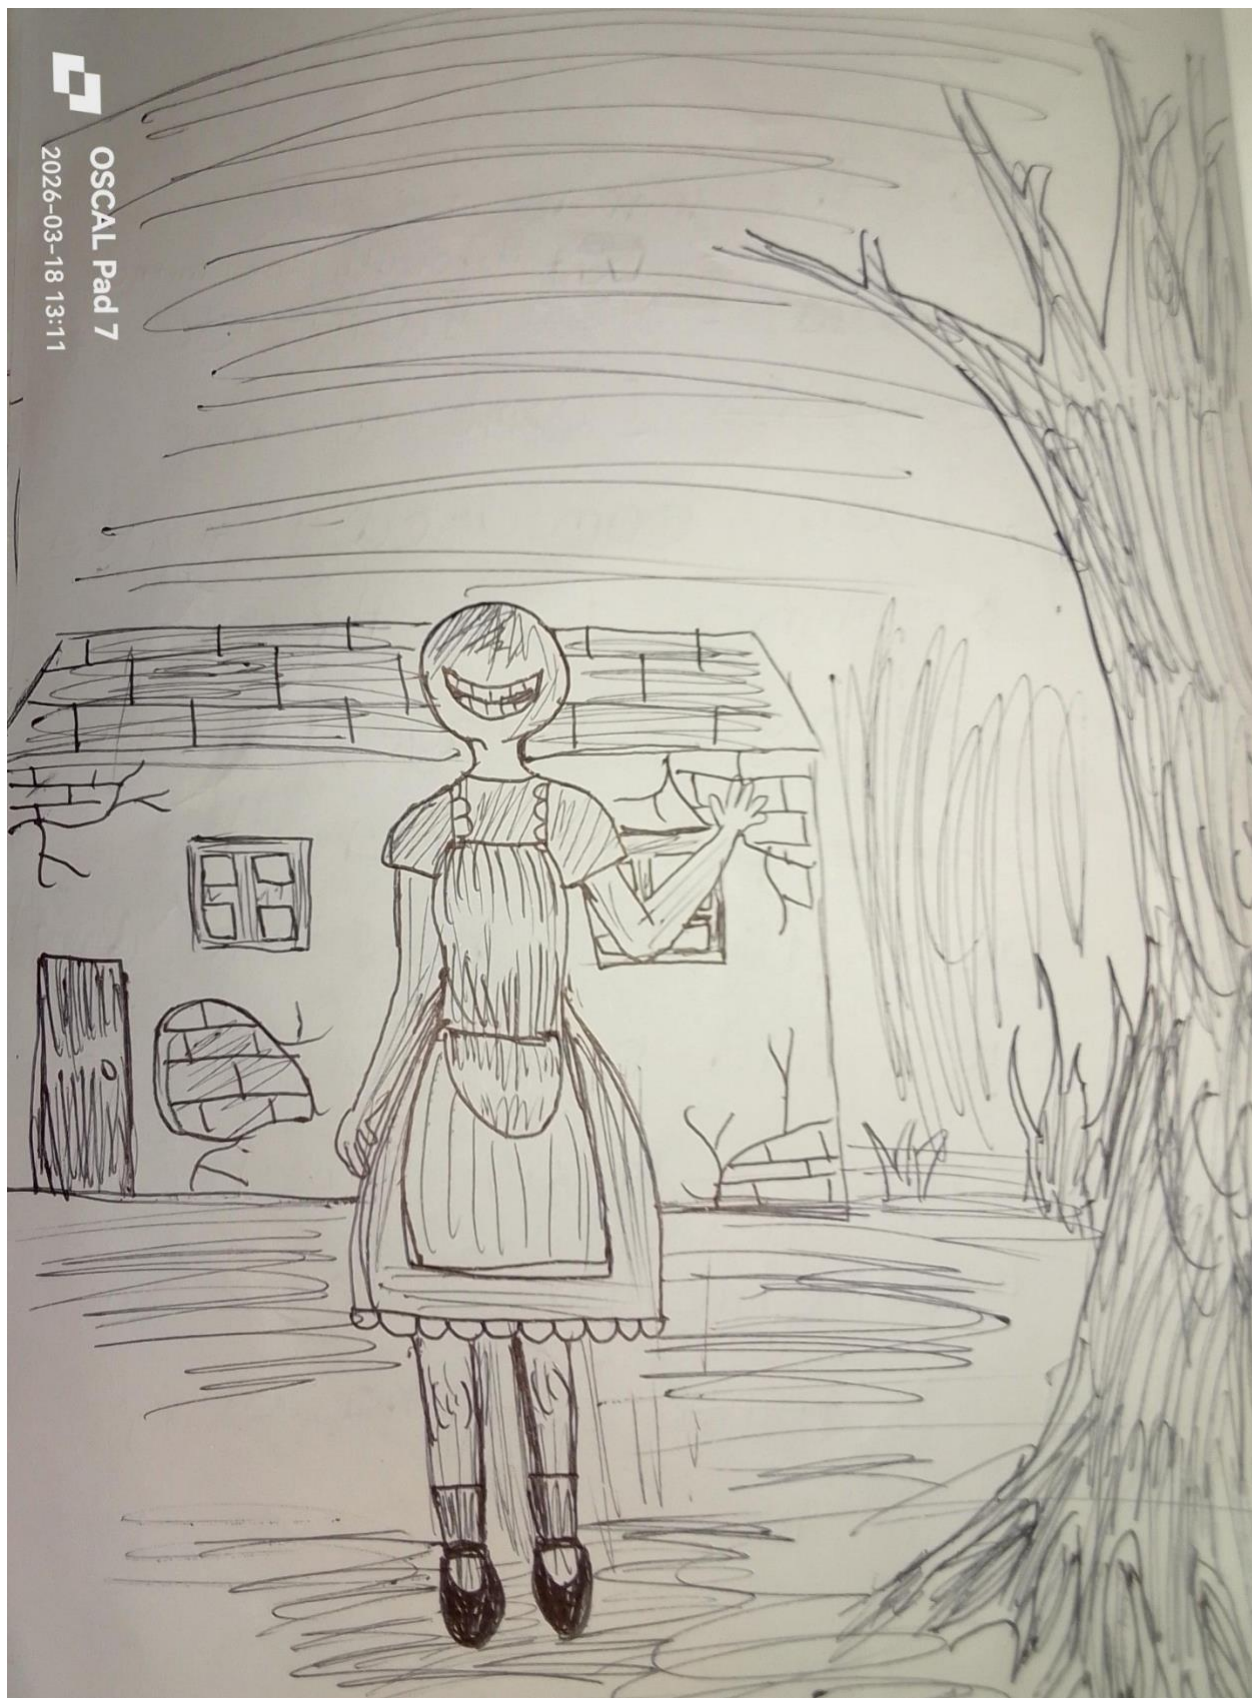

I went inside the house. It's creepy inside. I have to stay here because I don't have any place to stay. I am tired and hungry. I looked for something to ate. I found some carrots and matchbox, pot. I had some water. I can make a carrot soup. I make the soup. This is good but mom's testier then mine I am full. I felt sleepy. I woke up earlier in the morning. I saw someone and I followed it but nothing was there. It was creepy. I felt again someone following me I turned back and I saw someone. it's a spirit. I am scared.

I ran to the forest. I saw something shiny. It's shiny. I went there. It's a mirror. Where did this came from. I touched the mirror. It's like a another world. I went through the mirror. I came to my village. I am confused. I turned back nothing was there. I saw mom. I called her. She turned. It's not her. She didn't have eyes and a nose. She has a creepy smile. I am shocked. I looked around there s no mirror. I ran to the forest.
